

## Compact Enclosed Sparge and Vent System

**ESD Waste2Water, Inc.**'s Compact Enclosed Sparge and Vent Systems are the answer to sites where space is crucial. While compact, these systems offer the same parameters of much larger skid mounted system. Lockable, removable sides allow access for maintenance when necessary and provide security, protection from the elements, sound attenuation and aesthetics when in place. The system pictured is completely piped, prewired and fully integrated on a space saving 4' X 10' footprint.

### Features on System shown:

- 15 HP Rotary Claw Vacuum Pump                      300 CFM @ 15" Hg
- 5 HP Rotary Claw Compressor                         60 CFM @ 15 PSI
- Heat Exchanger
- In Line Air Particulate Filter
- 80 Gallon Capacity Air Water Separator
- Butterfly Valve for Flow Control
- Vacuum and Pressure Relief Valves
- Automatic Pump Out with in line Filtration and Liquid Phase Carbon Treatment
- All required Instrumentation
- NEMA VI Control Panel

Certified to UL-508A Standards
